

EGO – HEALTH – DECREES

ENS ASTRALE

The book of SAW Occult Medicine and Practical Magic says about Paracelsus how the astral light is the base of all sicknesses and the fountain of all life. Every sickness, every epidemic, has its astral larva. When these larvae become coagulated in the human organism, a sickness is the outcome... because before the physical atoms of an organ become sick, the 'internal' atoms of the same organ are already sick. "When the cause is cured, the effect is also cured".

ENS VENERI

Also, in the same book, same author we can read "Positive values bring health and joy. Negative values materialize themselves into sickness and bitterness. Smallpox is the result of hatred. Cancer is the result of fornication. Lies disfigure the human figure, thus engendering monstrous children. Egotism in extreme produce leprosy. A person is born blind because of past cruelties. Tuberculosis is the daughter of atheism. Therefore, each human defect, each ego, each 'I' is poison for the organism.

We suggest for better comprehension of this writing the reading and study of "Karma and Dharma Law", "Return and Recurrence Law", "Transformation of the Impressions", "The Human Machine".

The Egos create an inharmonic psychological frame, and this introduced into a sickness affecting the physical body. It is said there is no total health person. However, the less ego, the better health. The decrees are in this case a command to erase or at least to minimize the psychological frame. The decrees must be repeated as much as possible. Always must be considering the law which is above all the laws. This law is the supreme Law of Love, but Conscious Love.
